

## .NET Developer – Toronto

FrontStream is seeking a **.NET Developer** to join our downtown Toronto team.

Who are we? Not only is FrontStream a full service, integrated payments processor, but FrontStream also has a vested interest in the expansion of social good. We have significantly expanded our suite of charitable solutions through the FrontStream Nonprofit sector.

A **.NET Developer** is needed for growing IT services organization developing new and innovative web-based applications for corporate charitable giving. Work with high volume applications handling BILLIONS of dollars annually. Must have at least 1 year .Net including ASP.Net and C# with a solid SQL Server experience. We are looking for a developer who has a passion for writing software that people want to use.

### Responsibilities

- Produce tested and highly maintainable code.
- Maintain/Enhance existing codebase.
- Contribute to architectural designs.
- Serve as a technical resource for others on their team or to partners within other business units.
- Collaborate with teams, peers and other functions to ensure understanding of shared responsibility and deliverables to ensure project meets the scheduled objectives.

### Skills

- ASP.NET 4.5 C# MVC, RESTApi and Webforms
- Continuous Integration experience – Agile, TDD, deployment pipeline
- Working knowledge of design patterns and concepts such as 'Separation of Concerns', 'Domain Driven Design', and 'S.O.L.I.D.'
- Ability to apply strong knowledge of front-end technologies to create fantastic user experiences
- Ability to translate user stories and acceptance criteria into functional requirements and tasks
- Relational database experience – SQL Server
- nHibernate experience a plus
- Experience with Javascript frameworks
- Web-based technologies such as HTML, CSS, jQuery, Ajax, JavaScript
- TFS version control and builds
