

UX Designer- Cambridge, MA

FrontStream is seeking an **UX Designer** in our **Cambridge, MA** office to provide UX Design and research support to our growing and innovative product team.

Company Overview:

FrontStream is a fast-growing and international SaaS technology company that has been serving the nonprofit sector for more than a decade, and we love what we do. Our products include the most innovative event management, corporate social responsibility, and online fundraising solutions in the world. Our team is collaborative, enthusiastic, and delivers on our promises.

If applying your skills at a company that supports hundreds of top charities (on three continents!) sounds appealing ... we want to talk to you!

Position Overview:

We are looking for a UX Designer whose ready to adapt and extend the creative vision as new product goals and creative challenges emerge in our iterative, user focused environment. Candidates will be primarily measured on ensuring that solutions and deliverables meet modern design standards and help to solve key user problems. We're looking for someone who's excited about working with engineers, marketers, and designers to put users at the forefront of our product development.

Responsibilities include:

- Produce workflow diagrams, Wireframes, and prototypes of user interfaces
- Working with developers to meet product objectives and sprint commitments in an Agile environment
- Conduct and assist in user research to build and maintain user journeys, personas, task analysis & user story maps
- Creating custom iconography and other visuals elements as needed
- Conducting client, & user interviews
- Building clickable or interactive prototypes
- Working with developers to meet product objectives and sprint commitments
- Contribute and assist in managing of the enterprise wide design system library

Desired Skills and Experience Include:

- 2+ years of UX design experience in a product focused environment

- Proficiency with current design and prototyping tools such as Adobe Creative Suite, Sketch, Balsamiq or others
- A strong grasp of the technical implications and constraints of your design choices
- Understanding of UX and usability best practices in complex web applications

The company is headquartered in Reston, VA with offices in Cambridge, MA, Lancaster, PA, Toronto, ON and West Melbourne, VIC, Australia.

Interested candidates should send resume, references and salary history to: careers@frontstream.com with **"UX Designer- CAM"** in the subject line. No phone calls please.

FrontStream is an equal opportunity employer. The successful applicant will have proven eligibility to work in the United States.
