

Front End Developer – Cambridge MA

FrontStream is seeking a **Front End Developer** to join our **Cambridge, MA** team. The ideal candidate is needed for our growing IT services organization, developing new and innovative web-based applications for charitable giving.

Company Overview:

FrontStream supports over 10,000 charities and corporate customers across the globe. FrontStream is revolutionizing fundraising through its all-in-one platform, Panorama. We are the trusted provider of online fundraising and auctions, event management, donor management, and workplace giving to our international customer base. We have been serving the nonprofit sector for more than a decade, and we love what we do!

Why Work at FrontStream?

- Health, Dental, and Vision Insurance options, as well as company paid short-term, long-term and life insurance
- Retirement 401(k) savings program with company match
- A generous Time Off Program with paid company holidays!
- Fun work environment with a collaborative atmosphere, as well as opportunities for training and growth

Position Overview:

As a **Front End Developer**, you will work with n-tier architecture and with high volume applications handling BILLIONS of dollars annually. We are looking for a frontend Angular web developer who has a passion for writing software that people want to use.

Responsibilities Include:

- Produce tested and highly maintainable code.
- Maintain/Enhance existing codebase.
- Contribute to architectural designs.
- Collaborate with teams, peers and other functions to ensure understanding of shared responsibility and deliverables to ensure projects meet the scheduled objectives.
- Serve as a technical resource for others on their team or to partners within other business units.

Desired Skills and Experience Include:

- 3 years of Experience with **AngularJS** and Bootstrap
- Familiarity with ASP.NET 4.5 C# MVC, RESTApi
- Ability to apply strong knowledge of front-end technologies to create fantastic user experiences.
- Continuous Integration experience – Agile, TDD, deployment pipeline.
- Ability to translate user stories and acceptance criteria into functional requirements and tasks.
- Relational database experience – SQL Server.
- Experience with Angular and other Javascript frameworks

The company is headquartered in Reston, VA with offices in Cambridge, MA, Lancaster, PA, Toronto, ON and West Melbourne, VIC, Australia.

Interested candidates should send resume, references and salary history to: careers@frontstream.com with “**FE Dev- CAM**” in the subject line. No phone calls please.

FrontStream is an equal opportunity employer. The successful applicant will have proven eligibility to work in the US.
